Subject: Not strong enough

To whom it may concern:

In my opinion, the settlement proposed by Microsoft has no teeth. It only partially deals with the primary business tactics that Microsoft uses to perpetuate their monopoly and does nothing in the way of punishing them for past actions. While I am happy with most the work the DOJ has done under the Bush administration, I am severely disappointed with the way the DOJ now seems to be pandering to Microsoft in the settlement talks.

Microsoft's monopoly is bad for the country and bad for the computer industry. Only real competition will bring the 3rd innovation² Microsoft claims to bring.
